ADVANCED SKIN SERVICES

Dermalogica Propower Peel *Patch Test Required

A 60 min customised deep peel treating skin concerns such as pigmentation and uneven skin tone, fine lines and wrinkles, breakouts and acne. Includes deep serum treatment, masque and 15 min LED ensuring that you leave with a clear glowing skin.

60 mins €110 | Course of 3 €300

Microneedling - Collagen Induction Therapy

Our bt-titan microneedling system is a highly controlled and precise treatment, that is adapted to your exact skin needs and comfort. Sterile and disposable single use cartridges oscillate at speeds of up to RPM 1600 and with adjustable depths, making this a very safe and comfortable treatment. It is suitable for most skins. As very fine microneedles penetrate the skin they trigger the body's natural healing responses. These tiny needles create microscopic channels in the dermis that stimulate the body to start naturally producing proteins and collagen with a marked improvement in skin texture tone, fine lines, wrinkles, scars and pore size.

60 mins €125 | Course of 3 €350

Microcurrent for Non-Surgical Face Lifting

Microcurrent technology will lift, tighten and re-educate your facial muscles. Working with your skin's natural current to increase cellular energy to improve lymph drainage (47%) and circulation (38%) for a more contoured and defined appearance.

60 mins €85 | Course of 3 €235

Eyes Only 25 min €38 | Course of 3 €100

LED Light Therapy

LED phototherapy is a non-invasive facial treatment, that uses narrow band non-thermal LED light energy to increase cellular energy and trigger your body's natural cell processes to accelerate rejuvenation and repair of the skin. It is recommended for skin rejuvenation, sun damage, acne, rosacea, eczema, psoriasis, dermatitis, wound healing and scarring or for anyone looking to restore skin's radiance. Your treatment will include professional grade exfoliation deep serum treatment, masque and 30 minutes LED. Results with LED phototherapy are cumulative and a course of treatments taken in close succession is recommended for optimum results.

60 mins €65 | Course of 4 €235

APILUS XCELLPRO - ADVANCED ELECTROLYSIS

This state of the art technology limits the level of destruction within the hair follicle, ensuring only the germ cell is targeted. This helps to protect the skin while still achieving permanent hair removal. Sterile, disposable probes are used for all treatments. Your session will be followed by a post electrolysis treatment to soothe and calm skin.
